PROJECTS AND ACTIVITIES

PROJECTS

APPLE STORE

2023

IS027 PROJECT

- A project of fundamental coding website courses at UIT
- My main role: UI/UX design, front-end.
- Demo link: <https://apple-store-steel.vercel.app/>
- Github: <https://github.com/buubuu203/apple-store>

ELITE FITNESS

2023

PRODUCT FOR AISC COMPETITION

- Our project served for not only this competition but also be a part of my graduation thesis.
- This project uses machine learning to detect exercises in which a creative point is correct in the exercise for the user and gives out detailed scores and instructions.
- Github: <https://github.com/thienenpi/EliteFitness>
